## Nurses Corner

Healthy eating is an important life skill. It helps children grow, develop and do well in school. It prevents childhood and adolescent health problems such as obesity, dental cavities, and iron deficiency anemia. It lowers the risk of future chronic issues such as diabetes, stroke, cancer and heart disease. Visit [www.Myplate.gov](http://www.Myplate.gov) for more information.

Vision and Hearing screenings are complete. The next state mandated screening will be BMI (for students in Grade 1 and 4). If you have any concerns about your child's health or any of the school screenings mandated by the Department of Public Health. Please call Nurse Mudge at 781-319-3985.
