

Incllement Weather Bus Stop Changes

Dear Parents/Guardians:

The Marshfield Public Schools provides school bus service to all eligible K-12 students throughout the school year. This service, which covers a total of 40 square miles per day, includes certain residential areas that have a history of being hazardous to safe school bus travel at certain times during the winter months.

The Marshfield Police Department and Department of Public Works have assisted the Marshfield Public Schools with identifying these residential areas. As a result, and with the safety of all students our number one priority, the residential areas listed below will be assigned alternate bus stops on the days when road conditions are hazardous to safe school bus travel. Parents/guardians will be notified by the school district's ConnectEd telephone system when alternate bus stops are to be used.

Residential Areas	Alternate Bus Stops
Holly Hill	Indian/Ferry, Holly Road/Ferry
