WHATEVER IT TAKES
ANNUAL BUDGET

The annual budget is the financial expression of the educational program of the school department, and it mirrors the problems and difficulties that confront the school system.
The Superintendent shall present to the School Committee an administrative budget proposal for each fiscal year. The proposed budget will be developed based on School Committee goals set forth prior to budget development by the administration. The proposal shall be comprehensive and shall contain detailed back-up material satisfactory to the Committee.
FISCAL MANAGEMENT GOALS

As a trustee of local, state and federal funds allocated for use in public education, the Committee will fulfill its responsibility to see that these funds are used wisely for achievement of the purposes to which they are allocated.
FISCAL MANAGEMENT GOALS

“Because of resource limitations, there is sometimes a temptation to operate so that fiscal concerns overshadow the educational program. Recognizing this, it is essential that the school system take specific action to make sure education remains central and that fiscal matters are ancillary and contribute to the educational program.”
